Statement of intent

At Gatten and Lake Primary School, we understand that computer technology is an essential resource for supporting teaching and learning. The internet, and other digital and information technologies, open up opportunities for pupils and play an important role in their everyday lives.

'Today's pupils are growing up in an increasingly complex world, living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks.'

4. E-safety education

4.1. Educating pupils:

The online world develops and changes at great speed. New opportunities, challenges and risks are appearing all the time. It is therefore important to focus on the underpinning knowledge and behaviours that can help pupils to navigate the online world safely and confidently regardless of the platform, device or app.

An e-safety programme will be established and taught across the curriculum on a regular basis, ensuring that pupils are aware of the safe use of new technology both inside and outside of the school (embedded in the new SCARF materials and Purple Mash scheme of work)

Underpinning knowledge and behaviours include:

- **How to evaluate what they see online** – this will enable pupils to make judgements about what they see online and not automatically assume that what they see is true, valid or acceptable.
- **Online Behaviour** – This will enable pupils to understand what acceptable and unacceptable online behaviour look like. Pupils will be taught that the same standard of behaviour and honesty apply on and offline, including the importance of respect for others.
- **How to identify online risks** – This will enable pupils to identify possible online risks and make informed decisions about how to act.
- **How and when to seek support** – This will enable pupils to understand safe ways in which to seek support if they are concerned or upset about something they have seen online.
- **Legal issues around content** - Pupils will be taught to acknowledge information they access online, in order to avoid copyright infringement and/or plagiarism.
- Clear guidance on the rules of internet use will be presented in all classrooms.
- The school will hold e-safety events, such as Safer Internet Day and Anti Bullying Week, to promote online safety.

4.2. Educating staff:

- A programme of e-safety training opportunities is available to all staff members, including whole school activities and CPD training courses.
- All staff will undergo e-safety training on an annual basis to ensure they are aware of current e-safety issues and any changes to the provision of e-safety, as well as current developments in social media and the internet as a whole.
- All staff will undergo regular audits by the e-safety officer in order to identify areas of training need.
- All staff will employ methods of good practice and act as role models for pupils when using the internet and other digital devices.
- All staff will be educated on which sites are deemed appropriate and inappropriate.
- All staff are reminded of the importance of acknowledging information they access online, in order to avoid copyright infringement and/or plagiarism.
- The e-safety officer will act as the first point of contact for staff requiring e-safety advice.

- Effective filtering systems will be established to eradicate any potential risks to pupils through access to, or trying to access, certain websites which are harmful or use inappropriate material.
- Filtering systems will be used which are relevant to pupils' age ranges, their frequency of use of ICT systems, and the proportionality of costs compared to risks.
